

Tri-State Industrial Safety Council

Basic Orientation Plus™

The Tri-State Industrial Safety Council, a member of the Association of Reciprocal Safety Councils (ARSC), in partnership with USI Outreach and Engagement, offers the Basic Orientation Plus™ training program. Basic Orientation Plus meets most of the OSHA-mandated contractor requirements. As a result the contract employee spends less time at the council on an annual basis and more time on the job. This increases safety training efficiency for the contract employee due to a reduction in redundant information being presented.

>>Class Information

Class size is limited. Participants must register and pay for their course by 10 a.m. one business day prior to the class session.

Starting January 2018, the registration fee is \$120 for BOP and \$90 for Refresher.
